PROFESSIONAL SUMMARY

Software engineering student at WeThinkCode_ (diploma expected 2027) building mobile, backend and cloud projects in Java, Python, Dart/Flutter and React Native. Former Head of Department with four years of teaching and team leadership. Comfortable working in agile teams and explaining the code I ship, including AI-assisted code.

TECHNICAL SKILLS

- **Languages:** Java, Python, Dart, JavaScript, TypeScript, SQL, HTML5, CSS3
- **Mobile & Frontend:** Flutter, React Native, Expo, React, Figma, Figma prototyping
- **Backend & Data:** Django, Node.js, REST APIs, JSON, PostgreSQL, SQLite, Supabase, Firebase Authentication
- **Cloud & DevOps:** AWS (Serverless), Docker, CI/CD, Azure DevOps, Git/GitHub, Linux
- **Practices:** OOP, unit testing (JUnit, Jest), TDD, Agile, TCP/networking

TECHNICAL PROJECTS

Fundazaka | React Native, Expo, TypeScript, Supabase | *FNB Hackathon, Oct 2026*

- Co-built an offline-first financial app for gig workers and informal traders, presented at the FNB Hackathon.
- Secured local data with AES-256-CTR encryption and biometric login; synced through Supabase.
- Wrote 498 Jest tests across 39 suites.

Robot World Server | Java, SQLite, JUnit | *Group project*

- Built a multi-client server over TCP with a JSON command protocol.
- Persisted world state in SQLite.
- Wrote 300+ JUnit tests.
- Worked in an Agile team using Docker and a CI/CD pipeline.

MicroStep | Dart, Flutter, Firebase Authentication

- Built a task tracker that breaks any task into small, doable microsteps, paired with a Pomodoro timer.
- Added Firebase login and secure user management; handled setup, repo structure and UI/UX design from start to finish.

Golf Scorecard | JavaScript, IndexedDB, PWA

- Built an offline-first scorecard app that records club, shot direction and a photo per hole, with round history saved on the device.

Children's Reading & Numeracy App (in progress) | Dart, Flutter, Figma

- Co-designing a reading and numeracy app for ages 6 to 11, with a library of books followed by quizzes.
- Building level-based progression and prototyping the UI and navigation in Figma.

Code Clinic Tool | Java, JUnit | *Group project*

- Built a Java CLI that automates student programming workflows, test-first (TDD) with JUnit and code review.

TEACHING & COMMUNITY

Founder, Cottage Coders (@cottagecoders) | 2026 – Present

- Create short beginner-friendly videos on Instagram and TikTok teaching web development fundamentals, starting with HTML and CSS.
- Plan to expand into more stacks, turning what I learn at WeThinkCode_ into lessons.

PROFESSIONAL EXPERIENCE

Virtual Executive Assistant (Freelance) | 2024 – Present

- Manage social media, content scheduling and website upkeep for 2 clients.
- Handle calendars, invoicing, payroll and expense tracking.

Head of Department / Teacher, Curro Holdings | 2021 – 2024

- Spearheaded departmental leadership for 6 staff and 600 learners, offering strategic guidance, curriculum development, and bolstering staff performance.
- Ran workplace-readiness workshops and managed daily operations under tight deadlines.

Customer Service Representative, The Foschini Group | 2020 – 2021

- Collaborated effectively with team members and cross-functional departments to streamline communication and resolve complex issues.
- Documented every customer interaction in the CRM for accurate follow-up and quality assurance.

EDUCATION & PROGRAMS

- **Software Engineering Diploma (In Progress):** WeThinkCode_, South Africa (Expected Graduation: 2027)
- **CodeGirls Cohort 6 (Web Development Phase 1):** Expected Graduation: February 2027
- ***BCom Accounting (coursework), University of the Western Cape***
- **High School Certificate:** The Settlers High School
